Drilling for oil now is our only hope. It is out there; it is what we need; go get it! I am encouraged this morning that John McCain wants to drill off shore again. All of the conserving, all of the money being invested in testing new technologies is not going to cut it and it is no substitution for what we really need: OIL! Wind and electricity are not going to power my car or the many other things that need it. Depending on oil from the Middle East is shameful. Please tell Congress to allow production in full force offshore California and in the Gulf, Alaska and in the mid-west now and start repairing the old refineries and building new ones. It needs to be on the fast track; in other words do not take years writing an environmental impact statement. It can be done safely and with minimum impact to the environment.

It is very sad that I am no longer able to travel to visit my 78-year-old Mom in northern Arizona, a trip I/we used to make twice a year. This is distancing families more than ever. I may never see my other family members in California or Minnesota again unless gas prices drop. I am a 56-year-old widow struggling to make ends meet. I have had to give up driving any long distances. I only drive for local errands. It is a struggle now to pay heat, electric and food bills and it will only get worse. But heck, my family and friends are in the same boat; they cannot afford to visit me either.

I am sadly watching the elderly and disabled attempting to walk or ride bicycles to the grocery store that should not. I am seeing empty shelves at the grocery stores and other merchants because the trucks have not come in or are not coming as often. This is nuts.

My husband admired you; if he were here now, he would be the one who had a lot to say about the current situation America is in. You met him on a boat in Lake Coeur d'Alene quite awhile ago. He had much knowledge of our current situation as far back as the 1970s and predicted as did many others our current situation. He died of a brain tumor in 1999. His resume included work in Libya, Alaska, the Gulf, offshore Santa Barbara working for Baroid, and over 30 years of government service with the U.S. Geological Survey and Bureau of Land Management.

In response to your energy prices email—the increase for gasoline has been tremendous for my husband and me. We both are senior citizens, but still have jobs and go to work every day. Bob is a realtor and spends \$100 minimum per week. My cost is \$50 plus, even though I do not use my vehicle for work. We live about 14 miles from our offices, and we do not have economy vehicles. We probably could not even sell our cars right now. I work on commission and my paycheck for last month was \$256; that barely covers the \$200 plus for gasoline. Both of these businesses are down right now.

We totally agree with your thinking on this—keep up the good work. Why cannot others get it??

CHERYL, *Coeur d'Alene.*

Feeling the pinch is an understatement. I am very eco-friendly as much that can be afforded; however, when you weigh in the costs for the current prices, it makes it close to impossible to save to afford to be more eco-friendly. Thus creating a further pinch on my way of life. We are setting back those in

our economy and simply making it more difficult to do business. From my aspect, I oversee four hotels in the area and not only is airline travel being down causing an issue to our hotels but the overall cost of operations has risen. These operational costs have been from the increase in food cost many sur-charge related to fuel, to a higher rate of pay to incentive employees to drive that car to work every day, the list can go on.

Personally, I am a single mother and all the costs of my child are that for me to provide. The smallest incremental raise in cost creates stress in our way of life. We have to wage out some other wise “affordable” fun things to do if driving is (and as I love to see Idaho) involved. My gas costs have nearly doubled, food is costing more, and there are limited options other than facing these and dealing with them at face value. I would love to see there be more alternate fuel options so that we are using only what is necessary when it comes to oil.

I support anything you are doing that will make the world a more friendly environment and reusable environment; my greatest hope would be for this evolution to also allow more of my money to stay in my home.

Thank you for the opp. Our small business is fairly new, started in 2005, when we changed venue from a motel. It has never been a million dollar enterprise, but we did not expect that and did not need that; just hoped it was something we could hand to our kids when we retire. Every time the gas prices went up, business went down. Then the foreclosures started. Now many of our customers are gone. Some are even going back to California! We are now contemplating bankruptcy. The energy costs are a large part of the reason why. We have a small second hand store where we also sell hand crafted furniture and our pottery. When someone comes into our store with a LIST! we know things are going down the tube. This is the kind of store people normally spend time browsing in. Very few customers can afford to just shop anymore. They are struggling to buy gas to even go to town, and to buy groceries. I suggest an investigation into hydrogen power. It was going well in 1978, then no more was heard about it. We are promoting it to anyone who will listen, and I am going to spend time investigating; not just the feasibility of it, but the how. It is now a definite option.

Thank you for listening,

NANCY, *Priest River.*

I just want to say that as a Disabled American, I feel the pain!! My wife of many years works for the City of Boise while I am disabled and we are no longer moving forward. She works hard at the Water Treatment plant everyday and I battle my conditions equally hard and yet as I fight, the more it costs, electricity for my oxygen machine, co-payments to doctors offices, procedures, medications . . . etc. Now with this INFLATION hitting, we are feeling the effects of \$4.00 gas, higher utilities cost across the board, food prices and on and on.

See the thing is, we have been preparing for this for awhile now. Back in 2004 we traded in our 1994 Ford Taurus SHO @ 16 MPG Premium Fuel for a 2004 Honda Civic Hybrid that has gotten us to a real 40 MPG regular fuel. About the same time we moved closer to Sandra's work to save on daily driving. We even went to riding trikes to the Pharmacy and the grocery store, and my wife additionally rides hers to work now a couple of times a week or so . . . and yet we are using savings and have even cut back on putting funds that is matched by the City of Boise. We will be in trouble in a few years unless

something changes. I do not know what our government is going to do, but I believe that if they gave some sort of incentive to buyers to get into hybrids as well as the new clean burning diesel ala Europe. We could improve the oil situation, we have cut our usage by more than you would believe. Drilling up north is happening next door in Canada, what is up with us? We need to be making changes that the rest of the plant sees. We could help the USD to bounce back some and that would help reduce the cost of gas.

ADDITIONAL STATEMENTS

125TH ANNIVERSARY OF THE FREDERICK NEWS-POST

● Ms. MIKULSKI. Mr. President, today I wish to honor and congratulate the Frederick News-Post on its 125th anniversary. On October 15, 1883, a printing company in Frederick, MD, published the first edition of The News, an evening newspaper that reported about local happenings. In 1916, this printing company purchased another local paper, the Frederick Post, which it continued to offer in the mornings. After almost a century of circulating these two editions, the company chose to merge the two papers in 2002 and offer just a morning paper that included not only great local news stories but also important national coverage.

The Frederick News-Post circulates over 11 million papers a year and employs over 200 people. The company also includes FNP Printing & Publishing, a commercial printing venture as well as an Internet division called FNP Interactive. The Frederick News-Post is a vital part of the Frederick community, and I am so proud that this Maryland newspaper has been successful for the past 125 years. I hope that it continues to bring the news to families around the State for 125 more.●

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 724—EXPRESSING THE SENSE OF THE SENATE ON THE HORRIFIC TERRORIST ATTACKS AND SIEGE IN MUMBAI, INDIA, BEGINNING ON NOVEMBER 26, 2008, AND CONCLUDING ON NOVEMBER 29, 2008

Mr. CASEY (for himself, Mr. VOINOVICH, and Mr. CONRAD) submitted the following resolution; which was considered and agreed to:

S. RES. 724

Whereas, on the evening of November 26, 2008, evidence strongly suggests that 10 terrorists came ashore into the city of Mumbai, India, from a hijacked fishing trawler in the Arabian Sea, and conducted coordinated attacks on major hotels, restaurants, hospitals, and transportation hubs, and a religious center;

Whereas the attackers entered into a standoff with security forces of the Government of India over the next 60 hours at a number of sites, deliberately holding many hostages while trapping other innocent victims with no means of escape;

Whereas authorities of the Government of India brought the horrific three-day siege of Mumbai to a close on the morning of November 29, 2008;

Whereas the final death toll from the siege exceeded 170 victims, with hundreds more injured;

Whereas those murdered include citizens of India as well as 22 foreigners from 11 different countries, including the following six United States citizens: Aryeh Leibish Teitelbaum, Rabbi Gavriel Noah Holtzberg, Ben Zion Chroman, Sandeep Jeswani, Alan Michael Scherr, and Naomi Leila Scherr.

Whereas the terrorists who attacked Mumbai attacked a symbol of religious pluralism and outreach, a Jewish outreach center at the Nariman House, murdering six residents of the Nariman House, including Rabbi Holtzberg and his five-month pregnant wife, Rivka, orphaning their two-year old son, Moshe, who was heroically rescued by his Indian nanny, Sandra Samuel;

Whereas nine of the attackers were found dead at various sites where they were engaged in a standoff with authorities of the Government of India, with only one surviving attacker taken into custody;

Whereas evidence collected to date suggests the involvement of an Islamic militant group, Lashkar-e-Taiba, that has ties to al Qaeda and operates out of Pakistan;

Whereas India has endured a series of devastating terrorist attacks in recent years, suffering 3,674 deaths from terrorist attacks in a recent three-year period; and

Whereas India, the world's largest democracy, is a strategic partner of the United States, and this bilateral relationship is built on common values and unity against extremism: Now, therefore, be it

Resolved, That the Senate—

(1) affirms that the people of the United States stand in unison with the people of India in the aftermath of these horrific terrorist attacks;

(2) condemns strongly the atrocities perpetrated against the people of Mumbai, conveys its deepest condolences to the families and loved ones of those killed, and expresses its wishes for the speedy recovery of the hundreds of people injured in these senseless attacks;

(3) notes that these attacks did not only target citizens of India, but represented a collective assault against the international community, with 22 foreigners, including six Americans, among those murdered;

(4) noting that President Bush has offered United States Government assistance, encourages the Government of India to conduct a comprehensive investigation into the attacks and applauds the tone of moderation and restraint exhibited by the Government of India to date in reaction to these horrific attacks;

(5) urges the Government of Pakistan to investigate aggressively the possible connection of groups based in Pakistan, including the Lashkar-e-Taiba, to the Mumbai attacks and take definitive action to apprehend and detain suspects, and is thus encouraged by the raid on an apparent militant camp on December 7, 2008, and the arrest of key suspects;

(6) calls upon the Government of Pakistan to take all necessary steps to root out all extremist groups operating on its territory, halt attacks aimed at Pakistan and any other countries, and ensure that no elements of the Government support such groups;

(7) strongly encourages President-elect Obama to consider ways in which the United States Government can bolster counter-terrorism cooperation with the Government of India to ensure that authorities in that country possess all the requisite equipment and training needed to prevent and respond to future terrorist attacks; and

(8) urges bolstered United States efforts to develop and implement policies and projects to combat all forms of religious extremism, including anti-Semitism, in order to deter the type of targeted attacks like that waged against the Chabad Lubavitch center in Mumbai.

SENATE RESOLUTION 725—ACKNOWLEDGING THE ACCOMPLISHMENTS AND GOALS OF THE YOUTH IMPACT PROGRAM

Mr. VITTER submitted the following resolution; which was considered and agreed to:

S. RES. 725

Whereas many at-risk young men in the inner cities of the United States face a challenging and uncertain future;

Whereas the future success of at-risk young men can be greatly enhanced through sustained mentorship;

Whereas effective working partnerships between and within the public and private sectors can have a lasting and positive impact on the future of at-risk young men;

Whereas participation in organized sports has provided a creative and disciplined outlet and a path to a better life for many at-risk young men;

Whereas the Youth Impact Program combines the disciplines of football, mentoring, and academics in partnerships between local National Football League franchises and universities to promote discipline, learning, and positive values;

Whereas the Youth Impact Program is a community-based program that has proven its value over the past 2 years in raising the outlook and aspirations of at-risk young men and has provided at-risk young men greater exposure to academics, core values, and life skills;
